Enthusiastic and aspiring Full Stack Developer with a solid foundation in web development principles and a passion for learning. Proficient in front-end and back-end technologies, eager to contribute to meaningful projects and gain practical experience. Excellent problem-solving skills and ability to work in a collaborative team environment.

Skills:

HTML	REST API	PHP
CSS	Shopify	API
Bootstrap	JQuery	Mysql
JavaScript	Node	FireBase
React	Express	
JSX	MongoDB	

Front-End:

Proficient in HTML5, CSS3, and JavaScript, with a strong understanding of basic front-end concepts.
Familiarity with front-end frameworks such as Bootstrap, Foundation, and Material-UI.
Basic understanding of user experience (UX) and user interface (UI) design principles.

Back-End:

Knowledge of server-side programming languages such as Node.js, Python, and Java.
Familiarity with databases like MySQL, MongoDB, and PostgreSQL.
Basic understanding of RESTful API design and implementation.

Full Stack Developer:

Ability to work with both front-end and back-end technologies to develop simple web applications.

Familiarity with version control systems like Git and basic project management tools.

Strong willingness to learn, adapt, and apply new technologies and concepts.

Education: Bachelors of Science in Nutrition

      Pharmacy Technician Certification

      Full Stack Developer

Projects:

Developed a responsive website using HTML5, CSS3, and JavaScript, showcasing strong front-end skills and attention to detail.
Implemented basic back-end functionalities using Node.js and Express, including handling API requests and database operations.
Collaborated with team members to ensure smooth project delivery and meet project requirements.
Created a simple e-commerce web application using front-end technologies like Bootstrap and JavaScript, demonstrating understanding of UI/UX design principles.
Developed server-side functionalities using Node.js and Express, including user authentication and authorization.
Integrated with a MySQL database to store and retrieve data, showcasing basic back-end skills.
